Approximate Odds of Winning a Top Prize and Progressive Prize - 1 in 160,000

Games subject to change and may vary by site. Must be 18 years of age or older to play. Government-issued identification may be required.

*You must wager the maximum amount to qualify for the Progressive Jackpot. A portion of all purchases contributes to the Progressive prize. **If Progressive is enabled, coinciding line wins are paid in addition to the Progressive Jackpot (which includes the value of the 5 x 7 line award). The Progressive Jackpot cannot be won during the bonus round. The Progressive Jackpot displayed is estimated. During game play, it is possible that the Progressive Jackpot award displayed may have been awarded already. The Progressive Jackpot increases with every wager until it is won, after which it will reset.

A Deal is a defined prize structure comprising a set number of tickets with set prize amounts established to achieve a total prize value. †Prize Payout is the theoretical payout percentage based on the dollar amount of all cash prizes offered within a TapTix Deal at the time that the Deal is initiated and assuming all tickets for that Deal are purchased and all cash prizes are claimed. The final Prize Payout for a TapTix Deal is determined when a Deal is ended, and is based on the actual number of tickets that were purchased by consumers and the total value of the cash prizes claimed. Prizes for games are randomly distributed within a complete Deal of tickets. Deals are loaded into one or more TapTix machine(s) or held in inventory until a machine is reloaded. At time of purchase, some prizes offered may have already been claimed. Provided odds of winning any prize are approximate and based on a complete Deal of tickets. Odds may be subject to change. Malfunctions void all plays and pays. For more information on TapTix, including individual TapTix game odds and prize structures, visit the Customer Service Desk or refer to the "Rules" section on the TapTix machine. 5/5-BIL
